RE: Docket No. RM2017-3

Dear Commissioners:

We join the National Catholic Development Conference (NCDC), the Alliance of Nonprofit Mailers, and the nonprofit mailing community in urging you to reconsider your proposal to increase postage rates several times the rate of inflation. Increases that are estimated to reach 7 percent a year, or 40 percent compounded for five years, will not reform the United States Postal Service and will have a major negative impact on both the agency and its customers.

As a nonprofit, we rely on mail for the majority of our fundraising. But we operate on a limited, fixed fundraising budget each year, so if postage goes up as much as you contemplate, we will be forced to greatly reduce our mailings. This will have a disastrous impact on our revenue and our mission.

Our mission as Franciscan Sisters is to be a transforming presence in society by witnessing Gospel values. Our community of Sisters serve in 11 states.

Postage increases totaling 40 percent over the next five years will have the following impact on our mission and the people we serve: cause us to close many of our education and social service programs, become more dependent on state and federal programs, deny services to the most vulnerable in our society, put an end to our dreams to expand services to assist others.

Please do the right thing and reconsider your proposal.

Sincerely,

Sister Renita Brummer OSF
